

TOP 5 REASONS TO Recall Gavin Newsom

Homeless Crisis – Homelessness is out of control. Experts are saying that Medieval diseases are coming back in these dirty, crowded tent cities. It's not just San Francisco, but Los Angeles, Sacramento, and cities up and down the state. This is a public health threat and Newsom is doing NOTHING about it!

Sanctuary Cities – Newsom's Sanctuary City policies have resulted in illegal immigrants being released by local police in California after their arrests for minor offenses only go on to be charged with more serious crimes such as murder, rape, and assault. His policies are endangering Californians.

Death Penalty – Gavin Newsom used an "executive order" to stop the death penalty in California. He didn't ask California voters what we thought. No, he's siding with murderers and thugs, and stopping justice. To top it off, he recently granted clemency to 21 felons, including several violent murderers.

FREE Healthcare for Illegal Immigrants – Newsom signed a bill making California the first and only state to guarantee FREE healthcare to illegal immigrants. We have Californians who don't have healthcare – veterans, homeless, and families – yet Newsom prioritizes illegal immigrants including vicious MS-13 killers.

More Taxes – Newsom has proposed \$2.4 billion in NEW taxes. Enough is enough! We already pay the highest income tax, highest sales tax, and highest gas tax. Now Newsom wants a water tax, a health care tax, and he wants to change Prop 13 to hit businesses with \$11 billion in new property taxes.
